DETAILED ACTION

This office action is in response to the amendment filed October 10, 2006.

Response to Amendment

The limitations added to claim 32 are sufficient to overcome the Awano (US 20020163079) reference either alone or in combination. Therefore, the rejections of claims 32-42 under 35 U.S.C. 102(e) are hereby withdrawn.

Allowable Subject Matter

Claims 22 and 25-42 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reasons for the allowance of claims 22 and 25-31 were stated in the office action mailed May 4, 2005.

The primary reasons for the allowance of claims 32-42 is the inclusion therein, in combination as currently claimed, of the limitations of a first nanoelement covered with catalyst material in the form of at least one cluster and an ingredient that serves as a bonding layer to improve the bonding between the catalyst material and the first nanoelement. These limitations were found in claims 32-42 and are neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
